GLOSSARY OF TERMS

ADS – American Daffodil Society, www.daffodilusa.org

Card of Intent – States the arranger’s inspiration and personal expression of the class schedule.

Challenge Class – A class in flower shows where the flower show committee supplies all components. These items should be as identical as possible for each exhibitor.

Color Code - The codes that relate to the color found in the perianth and corona.

Corona - Cup or trumpet, the center portion of the flower which varies in length and shape.

Cultivar - A named daffodil, tested for seven or more years.

Disqualify - To remove an entry from consideration because of nonconformance to schedule requirements (Duty of the Passing Committee).

Dried Plant Material - Plant material from which all moisture has been removed.

GCA - Garden Club of America, www.gcamerica.org

GCV - Garden Club of Virginia, www.gcvirginia.org

Miniature - The same as a standard, only with smaller blooms, usually less than 1” in diameter.

Niche - A recessed space enclosed on three sides with the size governed and stated in the Schedule.

Novice - One who has never won a blue ribbon in a GCV flower show.

Perianth - The circle or wheel of petals and sepals surrounding the central corona.

Seedling - An unnamed daffodil in the process of being tested.

Standard - A full-size daffodil.

RULES FOR JUDGING

2. The Show Committee reserves the right to subdivide classes by cultivar or color code when there are three or more worthy exhibits of the same cultivar or color code and if there are a sufficient number of worthy exhibits left in the class. Species may be subdivided by their botanical sections.

3. The decisions of the judges are final. If an error is discovered in an exhibit after completion of judging, any award placed thereon (ADS, Special Award or Ribbons) shall be forfeited by the exhibitor. If an error is discovered before the judging is completed, the class MUST be rejudged.

4. Horticulture judges and student horticulture judges may not exhibit in a class where they are assigned to judge. Artistic judges and student artistic judges may exhibit in horticulture classes, but may not enter in artistic classes.

5. In Horticulture only one first, one second and one third award may be given in each class. Honorable Mention awards may also be given if merited but only if first, second and third-place ribbons have been awarded.

6. First, second, third or honorable mention awards may be withheld if, in their opinion, the judges feel that the exhibit is not worthy. However, if a blue ribbon has been awarded in a class eligible for an ADS ribbon, the ribbon may not be withheld.

7. The Best Bloom and Best Artistic Arrangement are chosen only from Blue Ribbon Winners, with the exception of an outstanding horticulture specimen exhibited in a non-blue ribbon, multi-stem class.

8. When selecting the Best Bloom, all horticultural judges must be present. When selecting Best Artistic Arrangement, all artistic judges must be present. Selection is made by ballot. In case of a tie, point scoring is required.

9. Judging begins on Wednesday, April 2, at 10:30 a.m.
RULES FOR HORTICULTURE EXHIBITORS

1. All classes are open to all daffodil growers except where specified.

2. Entries may be made from 3-9 p.m., Tuesday, April 1, 2008, and from 7-10 a.m. on Wednesday, April 2, 2008. All entries must remain in place until Thursday, April 3, 2008, at 1:00 p.m.

3. Judging will begin at 10:30 a.m. on Wednesday, April 2nd, at which time the show area will be cleared of all persons except show officials, judges and clerks until the show opens to the public. No exhibits accepted after 10:00 a.m.

4. Horticulture judges may not enter any class that they have been assigned to judge.

5. Exhibitors are asked to register upon arrival at the Show. All entry tags and labels will be provided.

6. Information on an entry tag, including the exhibitor’s number, which could compromise anonymity, must be concealed. Name labels or rubber stamp encouraged.

7. The exhibitor must have grown all standard blooms in the open. Miniatures may have been grown in protected areas.

8. There may be only one exhibit in each class from any one exhibitor except in Sections C, G, H, J, K and L and Division 11.

9. All cut daffodil specimens will be shown without daffodil foliage. Boxwood will be provided for staging blooms. All collections of five or more stems must be exhibited in separate containers. Containers will be provided for all horticultural entries and will be clearly marked in the staging area.

10. The Garden Club of Virginia Club Collections must be entered in the name of the club.

11. Each stem in an exhibit receiving an ADS Award must score 90 or more by the ADS scale of points.

12. Only one first, one second and one third award will be given in each class. Honorable mention awards may also be given, but only if all higher awards are given. If a blue ribbon has been awarded in a class eligible for an ADS ribbon, the ADS award may not be withheld.

13. First, second, third and honorable mention awards may be withheld by the judges if, in their opinion, the exhibit is not worthy.

14. The decision of the judges is final. If an error is discovered in an exhibit after completion of judging, any award placed thereon (ADS, Special or Ribbon) shall be forfeited by the exhibitor. If an error is discovered BEFORE the judging is completed, the class MUST be rejudged.

For questions concerning the horticulture schedule call: Mary Hoerneman at 804-462-5146 or e-mail mightymary@rivnet.net

LABELING

15. Exhibitors are responsible for proper name or number, division and color code where required. Color coding is recommended, but is not required, except in Section A, Class 3 and 4 and Section B, Class 19. The Royal Horticulture Society System of classification will be used. The authority is the Daffodils to Show and Grow (latest printing) and the ADS Daffodil Data Bank, which will be available for reference. Entries that are incorrectly named will not be judged.

16. The originator’s name MUST appear on the label for each stem in the American-bred classes, except for seedlings shown by the originator.

17. No label may be changed except by the Show Chairman or Classification Chairman in the case of placement error. No bloom may be altered, added, substituted or removed after the judging has begun or after an award has been placed.

MINIATURES

18. Miniature daffodils may be shown only in classes for miniatures. A miniature daffodil is any cultivar or species on the current ADS Approved List of Miniatures. Also, any named or numbered daffodil which appears graceful, with all its parts proportionately small, may be exhibited in Miniature classes and is eligible for all ADS awards, except only numbered seedlings shown by the originator are eligible for the ADS Miniature Rose Ribbon. The judges may decline to judge any exhibit containing an unapproved miniature that they consider too large for these classes.
SEEDLINGS

19. Blooms of seedlings may be exhibited in all classes for named cultivars, provided they are identified by a number and classification assigned by the originator. If an exhibitor is not the originator, the originator’s name must be included on each label. The originator of a daffodil is the person who first flowers the bulb, regardless of who made the cross and/or first planted the seed. Only seedlings shown by the originator are eligible for the Rose or the Miniature Rose Ribbons.

MISCELLANEOUS

20. The Show Committee reserves the right to subdivide classes by cultivar or color code when there are three or more worthy exhibits of the same cultivar or color code and if at least three worthy exhibits are left in the class. Species may be subdivided by their botanical sections.

**Class 194** Collection of five different standard cultivars, exhibited in block of five large test tubes.

**Section K - Intermediate Daffodils**

An Intermediate Daffodil is defined as a single-floret cultivar, typically greater than 50mm and through 80mm in diameter (1 15/16 - 3 1/8 inches) in diameter, from RHS Divisions 1, 2, 3, 4 and 11. Exhibitors may enter up to three different cultivars per class for single stems and vases of three. Each single stem is eligible for the ADS Intermediate Ribbon.

**Class 195** Single stem (may be subdivided) exhibited in single test tube.

**Class 196** Three stems, one variety, exhibited in large green vases.

**Class 197** Collection of five varieties, one stem each, exhibited in blocks of five large test tubes. This class is eligible for the ADS Purple Ribbon.

**Section L - Youth Division**

Open to exhibitors 18 or younger. Participants are not restricted to this section. They may enter other sections for which they qualify. Exhibitors may enter up to three different single stem entries in each class.

**Class 198** Single stem (may be subdivided). Exhibited in large green vases.

DAFFODIL CLASSIFICATIONS

Division 1 TRUMPET One flower to a stem, trumpet as long or longer than perianth segments.

Division 2 LARGE CUPPED One flower to a stem, cup more than one-third, but less than the length of the perianth segments.

Division 3 SMALL CUPPED One flower to a stem, cup not more than one-third the length of the perianth segments.

Division 4 DOUBLE Usually one flower to a stem, with doubling of the perianth segments or the corona, or both.

Division 5 TRIANDRUS DAFFODILS Characteristics of Narcissus triandrus clearly evident. Usually two or more drooping flowers to a stem, perianth often reflexed.

Division 6 CYCLAMINEUS Characteristics of Narcissus cyclamineus clearly evident. One flower to a stem, perianth reflexed and corona straight and narrow. Flower usually at an acute angle to the stem on a short neck.

Division 7 JONQUILLA AND APODANTHUS Characteristics of Narcissus jonquilla group clearly evident. Usually one to three fragrant flowers to a stem, perianth segments spreading, not reflexed.

Division 8 TAZETTA Characteristics of the Narcissus Tazetta group clearly evident. Usually three or many fragrant, very short-cupped flowers to a stout stem, perianth segments spreading, not reflexed.

Division 9 POETICUS Characteristics of the Narcissus poeticus group clearly evident. Usually one fragrant flower to a stem, pure white perianth, small flat cup edged with red.

Division 10 BULBOCODIUM Characteristics of Section Bulbocodium clearly evident; usually one flower to a stem; perianth segments insignificant compared with the dominant corona; anthers dorsifixed (i.e. attached more or less centrally to the filament); filament and style usually curved.

Division 11 SPLIT CORONA Usually one flower to a stem, corona split (not lobed) for at least one-third and usually half of its length.

Division 12 MISCELLANEOUS All hybrid daffodils not falling into any of the foregoing divisions.

Division 13 SPECIES WILD VARIANTS, AND WILD HYBRIDS Any species, one bloom per stem. Any species more than one or more blooms to a stem.

ENTERING THE ARTISTIC SHOW
Artistic Design General Rules

1. The Schedule is known as “The Law of the Show.”

2. One person, except in the Inter Club Class that is entered in the name of the club, must execute each entry.

3. An exhibitor may enter as many classes as desired, but is restricted to one entry in each class.

4. The Passing Committee must pass all arrangements before the exhibitor leaves the show floor. The Committee may disqualify arrangements that do not meet the schedule requirements.

5. All designs will be judged according to The Garden Club of Virginia Flower Shows Handbook.

6. All designs must include fresh plant material.

7. All designs may include a base that is considered part of the container.

8. The use of commercially grown flowers is discouraged. If used, only seasonal flowers should be chosen.

9. Treating fresh plant material by application of substances, such as paints, dyes, etc., is not permitted. Plants may be clipped, stripped, bent or otherwise manipulated.

10. Plants on the Endangered Species list may be used only if grown in exhibitor’s garden.

11. All containers and accessories must be plainly marked with exhibitor’s name and address. Instructions for shipping should be made and a fee paid if the container is not to be claimed at the end of the show.

12. A 3 x 5 card listing all plant material, followed by “G” for garden grown and “F” for florist, must accompany each design.
13. Artificial flowers, foliage and fruit are not permitted.

14. The following are permitted unless prohibited by the schedule:
   a. Accessories
   b. Contrived flowers and/or forms made of fresh or dried plant material
   c. Cut fruit or vegetables sealed in some manner to discourage insects
   d. Objects that add interest when tastefully used, e.g., nests, feathers, coral, sponges, sea fans, starfish, antlers, etc.
   e. Container-grown plants growing in soil as part of Pot-et-Fleurs or other appropriate classes.
   f. Dried and/or treated dried plant material.

15. Plant material must not touch the back, sides or floor of the niche or extend beyond the opening unless specified in the schedule.

16. A base may not be used to extend the dimensions of the area unless specified by the schedule.

17. Drapery and background material are considered accessories.

18. Artistic judges may not enter any artistic class, but may enter any horticulture class.

19. GCV trophy winners may keep the trophy for one year.

**PROCEDURE FOR THE EXHIBITOR IN THE ARTISTIC DIVISION**

1. When an exhibitor has completed her design and filled out the entry card, including the floral material used and noted whether it is “Garden” or “Florist,” she will inform a Passer that her arrangement is ready to be passed.

2. The Passers will examine the arrangement to verify that it complies with the schedule and that the plant list is accurate.

3. The exhibitor may not leave the exhibit area until her entry has been passed.

4. The exhibitor may not alter her arrangement after it is passed, except for watering and necessary maintenance, i.e. clipping out dead plant material.

5. Children’s Class is open to exhibitors 18 or younger. Participants are not restricted to this section. They may enter other sections for which they qualify.

**ARTISTIC SCHEDULE OF CLASSES**

**Daffodils must predominate in all arrangements.**

**PORTS OF CALL: THE NORTHERN NECK**

The Northern Neck: Virginia’s northern-most peninsula surrounded by the waters of the Rappahannock and Potomac Rivers and the Chesapeake Bay. This land, platted by Captain John Smith in 1612, is where life and water are intrinsically bound. Join us as we travel to the Northern Neck’s Ports of Call.

All entries will be judged referencing the section “Entering the Artistic Show” in The Garden Club of Virginia’s Flower Show Handbook revised 2002 (GCV-FSH). A brief card of intent is optional. Workrooms will be available for artistic arranging.

For questions concerning the artistic schedule, contact Bonnie Morris at (804) 333-5192 or e-mail by-morris@verizon.net or Sue Ramsey at (804) 394-9784 or email sramsey22548@yahoo.com.

**INTER CLUB (Inter Club assignments)**

Open only to Garden Club of Virginia member clubs and exhibited in the name of the club.

All Inter Club arrangements will be displayed on gray pedestals, 42” high, with 12-inch square tops and will be viewed against a dark green background 76” inches high. There are no height restrictions. Arrangements are not to exceed 24 inches in width. Drapery permitted but no other accessories. Exception, Class C, accessories permitted.

**Class 199 A**

**Leedstown.** Located on the banks of the Rappahannock River, the town of Leed, 1742, was a thriving center of trade and shipping in colonial days and boasted three ordinaries. In 1766, Richard Henry Lee and 115 patriots met in Leedstown to draft and sign the famed Leedstown Resolutions, the forerunner to the Declaration of Independence.

~ Create a Late Colonial arrangement (GCV-FSH pages 73-74) suitable for a hall table during a gathering of the patriots in a Leedstown ordinary.
Class 199 B

**Historic Christ Church.** Located in Lancaster County, Historic Christ Church, 1735, was proposed and built by Robert “King” Carter. Materials shipped for construction arrived at Corotoman (sic) Landing at the Carter plantation. Historic Christ Church is considered the most finely crafted of colonial Virginia’s churches. A 1966-68 Garden Club of Virginia Landscape Restoration Project.

~ Create a *Traditional Line Mass* arrangement (GCV-FSH page 81) in a brass candlestick to celebrate the completion of the GCV Landscape Project in 1968.

Class 199 C

**Reedville.** Captain Elijah Reed from Maine founded Reedville off the Chesapeake Bay in 1867. He established the menhaden fishing industry. At the turn of the 20th century, Reedville was the richest town per capita in the United States and Main Street was called “Millionaire’s Row”, showcasing lovely Victorian homes built from this industry’s wealth.

~ Create a *Mid-Victorian* arrangement (GCV-FSH pages 75-67) to grace the foyer at *The Gables*, the home of Captain James C. Fisher.

Class 199 D

**Sharps.** Sharps Wharf is a waterfront village on the Rappahannock River. The docking of the James Adams Floating Theatre was a highlight of the season at the turn of the 20th century. Guests filled hotels and tourist homes while shops bustled with activity.

~ Create an *Art Nouveau* arrangement (GCV-FSH page 76-77) to grace the parlor of Acres’ Riverside Inn, a small cottage that welcomed tourists.

**INDIVIDUAL ARTISTIC CLASSES**

Note: All tables are 28.5 inches from the floor, 30 inches deep, covered with a white cloth, and placed in front of a neutral background. Arrangements will be separated by a yellow ribbon on the display tables.

**OPEN CLASSES**

Limited to 6 entries per class

Class 200

**White Stone Beach.** At the height of its popularity during the 1950s and 1960s, White Stone Beach on the Rappahannock River was the place to go, known for family gatherings and picnics during the day and swinging dances on the wharf at night.

~ Create a *Synergistic* arrangement (GCV-FSH page 83) suggesting uninhibited dance movements. To be displayed on a table against a white wall.

Class 201

**Riches of the Orient.** The ports of the Northern Neck brought in ships carrying cargo from all over the world, including the riches of the Orient.

~ Create a *Moribana* arrangement (GCV-FSH pages 79-80) depicting the riches of the Orient arriving at ports throughout the Northern Neck. To be displayed in a white niche 32” high x 24” wide with 12” wings. Depth is 24” and spread is 30”. Drapery permitted.

Class 202

**Native American.** At the time of John Smith’s exploration, there were 9 Algonquian Chiefdoms in the Northern Neck, including the Rappahannock, Moratico, Wicomoco, and Matchotic. The rivers were their lifeblood and villages were located along the shores where the bounty of the water was easily accessible.

~ Create a *Free Form* arrangement (GCV-FSH page 81) depicting the reverence of the Native Americans for the water. To fit in a space 30” wide and displayed against a black background. Accessories permitted.

Class 203

**Challenge Class.** Skipjacks were work-boats on the bay and rivers used to harvest oysters.

~ Create a *Traditional Line* arrangement (GCV-FSH page 80) reflecting the importance of the skipjack on the waters of the Northern Neck. All material will be provided. Arrangers will have one hour to complete their design, which will begin at 8:30 am Wednesday in a designated workroom. To be viewed on a pedestal draped with a white cloth on a table; the pedestal is 8” square and 8” tall.

Class 204

**Novice.** From the early 1800’s through 1934, river steamboats and their landings were the Northern Neck’s main links to the rest of the world. In addition to transporting merchandise, products, and livestock, people traveled and vacationed on the steamboats, enjoying elegantly appointed dining and staterooms.

~ Create a *Pot-et-Fleurs* arrangement (GCV-FSH page 86) reflecting the grandeur of a stateroom for a steamboat honeymoon trip to Baltimore. To fit in a space 20” wide and viewed on a table covered with a white cloth to the floor.
Class 205

Children’s Entry. Tomato canning was an important industry during the Steamboat Era. Farmers brought tomatoes by boat or horse and wagon to be canned and sent to the cities by water.

~ Create an arrangement in a 14.5 ounce can. Labels from tomato canning factories of the Northern Neck will be provided. Daffodils must be the dominant flower and the use of other flowers and plant material is encouraged. Open to exhibitors 18 or younger.
