

NORFOLK HOME & GARDEN TOUR

Thursday, April 23, 2026
10 a.m. - 4 p.m.

Larchmont

Presented by the Garden Club of Virginia and hosted by The Garden Club of Norfolk and Harborfront Garden Club. Proceeds from the tour benefit the restoration of historic gardens and landscapes throughout Virginia.

Larchmont: This section of the neighborhood is centered around a triangular green space and bordered by the Lafayette River. The neighborhood was developed in 1906 by the firm Bellamy and Hough. Located five miles from downtown Norfolk, it was considered “country” by the locals, which inspired the developing firm to create its own bus line called the Larchmont Transit Company. This allowed residents to enjoy a neighborhood with spacious homes; expansive gardens, and access to life on the river. Today, this neighborhood is known for its beautifully maintained and restored 100-year-old dwellings, as well as outdoor spaces that make residents proud to call this place home.
